

**WINE BOTTLE
PHOTOGRAPHY
FREE TRIAL**

ABOUT

My name is Vadim. I am an accomplished photographer and creative director with over 20 years of experience. Most of the time I have been working in the largest russian retail chains. My responsibilities *as a photographer* included shooting goods (electronics, household appliances, food, alcohol, drinks, and such) for catalogs and promotional materials, as well as digital retouching and preparing them for printing.

Now, I have moved to the United States permanently and would like to focus on providing **wine bottle photography for catalogs, the internet**, and staged photography. My own fully equipped photo studio and many years of experience allow me to do these services professionally.

THE OFFER

As a special promotional, for your company, I want to offer you a trial photo session of the collection of your products for the catalog and the Internet **FOR FREE!**

This is only a one time offer, but there are no limitations to the number of bottles of your brands.

The offer excludes shipping costs.

WHAT DOES IT
GIVE FOR YOU?

THE SHOT

Each shot includes fully controlled key lighting with subtle reflected lighting at the sides of the bottle. Meticulous retouching of each image with extra attention to the label and the logo of your brand.

The studio's capabilities allow me to create almost any lighting scheme, so, I can adapt it according to your references at request.

The bottle is placed at a pure **white background with a clipping path** RGB 4200 px .jpg file, as well, you will receive a .png file with a transparent background.

ON BLACK

As a part of the offer, You also will receive **an additional shot** of each bottle at the black background with the naturally lightened glow shine around the contour of the bottle. So it would be seen against a dark background.

EXTRA

If a bottle sleeve does not contain any hidden design elements, a license etiquette and any minor bottle imperfections could be **digitally removed** at your request.

The retouching method that I use allows me to remove infelicities without disturbing the natural texture of the object.

WANNA GET IT?

All you need to do is write to me at mustaev@gmail.com, then after confirmation, send the collection of bottles to my address and get *ready-to-use* photos within one week after I receive the package. No obligation for future orders is required from you.

And, If you provide any promo goods, such as a bottle wood box, corks, a branded cork opener, etc., I'll make an additional *hero image shot* one (or group) of the bottles with an entourage.

WHAT NEXT?

Although this offer does not oblige you to place subsequent orders, I would be happy if you like my work and would like to move on to further commercial cooperation.

THE PRICE FOR ONE BOTTLE (UP TO 6) IS \$45, and \$25 FOR EACH ADDITIONAL ONE.

It includes photos on a white and transparent backgrounds.

A SERIES ON A BLACK BACKGROUND WILL COST AN ADDITIONAL \$100 PER COLLECTION.

All shipping costs are your responsibility.
